PRESS RELEASE: Introducing Citizen RIMS: Ukiah Police Crime Mapping Tool

Date: 02/19/2026

Introducing Citizen RIMS: Our New Crime Mapping Tool

We are pleased to introduce **Citizen RIMS**, our new public crime mapping and information tool. Citizen RIMS is replacing our previous daily press logs to provide the community with more timely, transparent, and interactive access to police activity information.

Unlike static press logs, Citizen RIMS offers:

- **Interactive mapping** of incidents within our community
- **Searchable and filterable data** by date, location, and incident type
- **Regularly updated information** for improved transparency
- **User-friendly access** from any computer or mobile device

This transition allows us to provide more comprehensive and accessible information while improving the efficiency of how we share updates with the public.

Our goal is to enhance transparency, strengthen community awareness, and provide a modern tool that better serves our residents, businesses, and visitors.

We encourage you to explore [Citizen RIMS](#) and use it to stay informed about activity in your area.
